

## Copyright Transfer Form

### Preamble

The FMCAD Association<sup>1</sup> is committed to making the proceedings of the FMCAD (Formal Methods in Computer-Aided Design) conference as available as possible. To that end, the FMCAD Association will publish the proceedings with TU Wien Academic Press under an Open Access license. In addition, the FMCAD Association will endeavor to have the proceedings included in the IEEE Xplore Digital Library. In order to effectively distribute and protect the availability of proceedings, the FMCAD Association requires the consent of all Authors to the terms stated in this copyright transfer form. This form also gives Authors essentially unrestricted rights to distribute their Contributions, as outlined in the Author Rights section below.

## 1 Details of Contribution

Year: 2021 Editors: Ruzica Piskac and Michael Whalen

Title of Contribution: Stainless Verification System Tutorial

Author(s) (Full Name(s), ORCID if available):

Author #1: Viktor Kunčák ORCID:

Author #2: Jad Hamza ORCID:

Author #3:  ORCID:

Author #4:  ORCID:

Further Authors:

---

## 2 Rights Granted

The Authors assign to the FMCAD Association a non-exclusive copyright to the above contribution. The copyright transfer gives the FMCAD Association the right to print, publish, and distribute the contribution throughout the world in all current and future languages, forms, and media of expression. The FMCAD Association does not need permission of the authors to exercise its rights and can transfer rights, such as the right to publish electronic versions of the contribution, to other organizations and persons, such as IEEE and TU Wien Academic Press, or the editors of the FMCAD conference proceedings or the series editors. The Authors acknowledge that a publication under a CC-BY license is possible and give their express consent.

## 3 Author Rights

The Authors retain the same rights as the FMCAD Association. They can distribute their contributions on their Websites or in any manner they see fit, as long as a full citation to FMCAD is given, and a link to the [fmcad.org](http://fmcad.org) website is provided. In addition, the Authors can create derivative works in connection with the Authors' scientific and academic activities. The Authors retain all proprietary rights in any process, procedure, or article of manufacture described in the Contribution.

## 4 Author Responsibilities

The Authors warrant that their Contribution represents their original work and that they are the Authors of the material. Furthermore, to the extent the Contribution incorporates text passages, figures, data or other material from the works of others, the Authors have cited these in a legally correct manner, obtained any necessary permissions and will provide copies of these permissions to the FMCAD Association if requested. The Authors agree to indemnify and hold harmless the FMCAD Association from any damage or expense for which the FMCAD Association may become liable as a result of any breach of this warranty.

## 5 Corresponding Author

One Author must act as the Corresponding Author. The Corresponding Author warrants that (s)he has the power and authority to transfer the copyright on behalf of all Authors and their Employers. The Corresponding Author agrees to provide to the Editors or their representatives all requested material by the date specified by the Editors. This may include LaTeX files, PDF files, supporting materials, etc. The submitted material must be prepared in accordance with the instructions provided by the Editors or their representatives.

Corresponding Author's Name, Affiliation, and Email:
